

Our updated operating system went into effect on Monday, October 1st. Here are some of the features of the new system:

- **On-shelf holds** - You can now put an item on-hold from home...even if it shows that it's available on our shelf! Previously an item had to be checked out to qualify for a hold. On-shelf holds are not instant, so wait for your confirmation message before heading to DPL to pick up your item!
- **DVD holds** - With our new system, DVDs can be placed on hold! No more calling on the day it's due to see if the DVD you want was turned in...just put it on hold and we'll let you know when you can pick it up.
- **A new layout for our online catalog** - See below for just a few highlights of the features of our new catalog!

Some of these features are still in the process of being fine-tuned. Thank you for your patience as we work to provide you with the best possible service!

NEW Public lists: Library lists of recommended reads around certain themes, authors, or genres. When you log in to your account, you will also see the lists you have saved under this tab.

NEW Online card application! New patrons can apply online for their DPL card, bring their I.D. & proof of address into DPL and we'll issue the card.

blog

NEW Clicking on these buttons will change the book covers flowing across the screen. "New Releases" are newly released titles; the others are newly added titles to DPL in that particular collection.

COMING SOON Currently when you click on this link you will get an error message. Once it is up and running, you will be able to suggest titles for the library to purchase via an online form. You'll even get a response letting you know that we're purchasing the title or why we won't be getting it.

NEW Three ways to get to the same online account management. Your password is the last four digits of your library card.

Using your online account

1. Log in to your account using your DPL card number (2156400XXXXXX) as your Login and the last four (4) digits of your card number as your Password. Once logged in, your name will show here.
2. Manage your account by clicking the buttons on the menu on the left side of the screen.
3. We have included more information about a couple of tabs below, but we encourage you to explore all the options. Let us know if you have any questions about your account!

Get your account notices as a text message or an email

1. Once you are logged in to your account, click on “your messaging” on the left menu.
2. Select how you want to be notified for each notice:
 - **Item due** - notification that you have an item due
 - **Advance notice** - notification that will alert you in advance that your items will soon be due; you select how many days in advance you receive this notice
 - **Hold filled** - notification that an item you’ve placed on hold is now available for pick-up
 - **Item check-in** - confirms that you have returned items to the library
 - **Item checkout** - instead of a printed checkout slip, you will receive an email or text when you check items out.
3. To get **text message notifications** check the SMS box. You MUST fill in your phone number in the “SMS number” field as well as select your cell phone provider in the “SMS provider” field, in order to complete this option.
4. To get **email notifications** check the Email box.
5. If you do not want a certain type of notice, click the “Do not notify” box.
6. To save your preferences, click the “SUBMIT CHANGES” button at the bottom of the page.

Clicking the “Digests only” box will reduce the number of messages you get. For example, instead of receiving a text message for every item you have checked out, you will receive one message stating that you have multiple items due.
