## THE DEFIER

LEVEL: SKILLED ★★☆☆

INSPIRED BY THE BERNOULLI PRINCIPLE

Fold like this, try not to be too accurate, a little unevenness will help later on

Roll the paper against a desk like a shoeshine would to create a curve.

From your slight inaccuracy at the start, one end will be slightly narrower than the other. Slide the narrow end inside the wider end as far as you can or until it forms a snug fit. Squash into an oval shape. Throw by clicking your wrist down, letting it fly off your fingers.

HEY PRESTO!

## THE RAPTOR

LEVEL: SKILLED ★★☆☆

INSPIRED BY THE PREHISTORIC

Fold creases then flip

Fold crease, unfold, then flip back

Pop the paper by touching the middle of the intersecting creases

Fold in half

HURR...AAHHHHH DONE!

Held tight in a vise the paper should hold tight together like this

The last fold is back from the nose
