

City Skyline Craft

You will need:

- Glue
- Scissors
- Finger paint (recipe on next page if you don't have any on hand)
- A blank piece of paper

Instructions

1. Cut out the City Skyline below, including the windows (this might be time-consuming, but it will be worth it when you see the finished product)
2. On your blank piece of paper, use finger paint to color swirls of sky colors. Be sure to cover the whole page. Try using pinks, yellows and oranges to make a beautiful sunset! Let the page dry before moving to the next step.
3. Glue the cut-out of the City Skyline over the painted page. Position the cut-out at the bottom so that your beautiful colors swirl on the top of the page. You will also see your sunset colors "reflected" in the windows of the building!

Finger Paint Recipe

****Be sure to have an adult help with this project****

Ingredients:

- 2 cups flour
- 2 cups cold water
- food coloring

Directions:

1. Pour the water into a large bowl; add the flour slowly stirring constantly.
2. Stir until it is totally smooth
3. Divide into smaller bowls or muffin pan
4. Add food coloring to get the colors you want

Color mixing tips:

Red + Yellow = Orange

Yellow + Blue = Green

Red + Blue = Purple
