

Make Your Own Hen

You will need:

- paper plate (or you can cut a large circle from a regular piece of paper)
- something to color with
- scissors
- Glue
- Googly eyes (optional; you can use the ones on the template if you prefer)

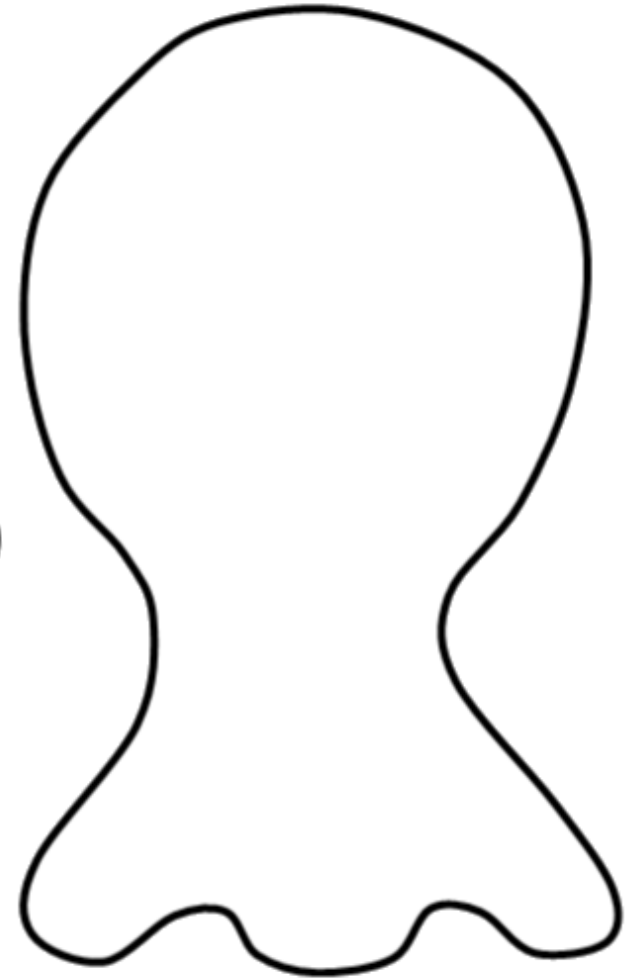

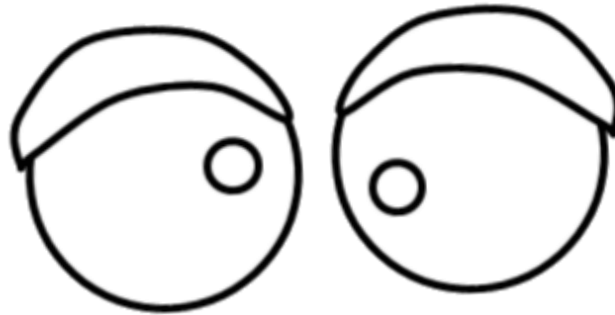

Instructions:

- Color and cut out the template pieces. Most of the pieces are simple enough shapes for young children to cut out, but if needed, an adult can help with some of the harder pieces (the wings and the tail)
- Glue the pieces to the plate to make a chicken that looks like the one in the picture
