

Sunshine Wind Flag

You will need:

- Crayons, markers, or colored pencils
- Sunshine wind flag template
- A pencil
- A straw
- Tape or glue
- Yarn

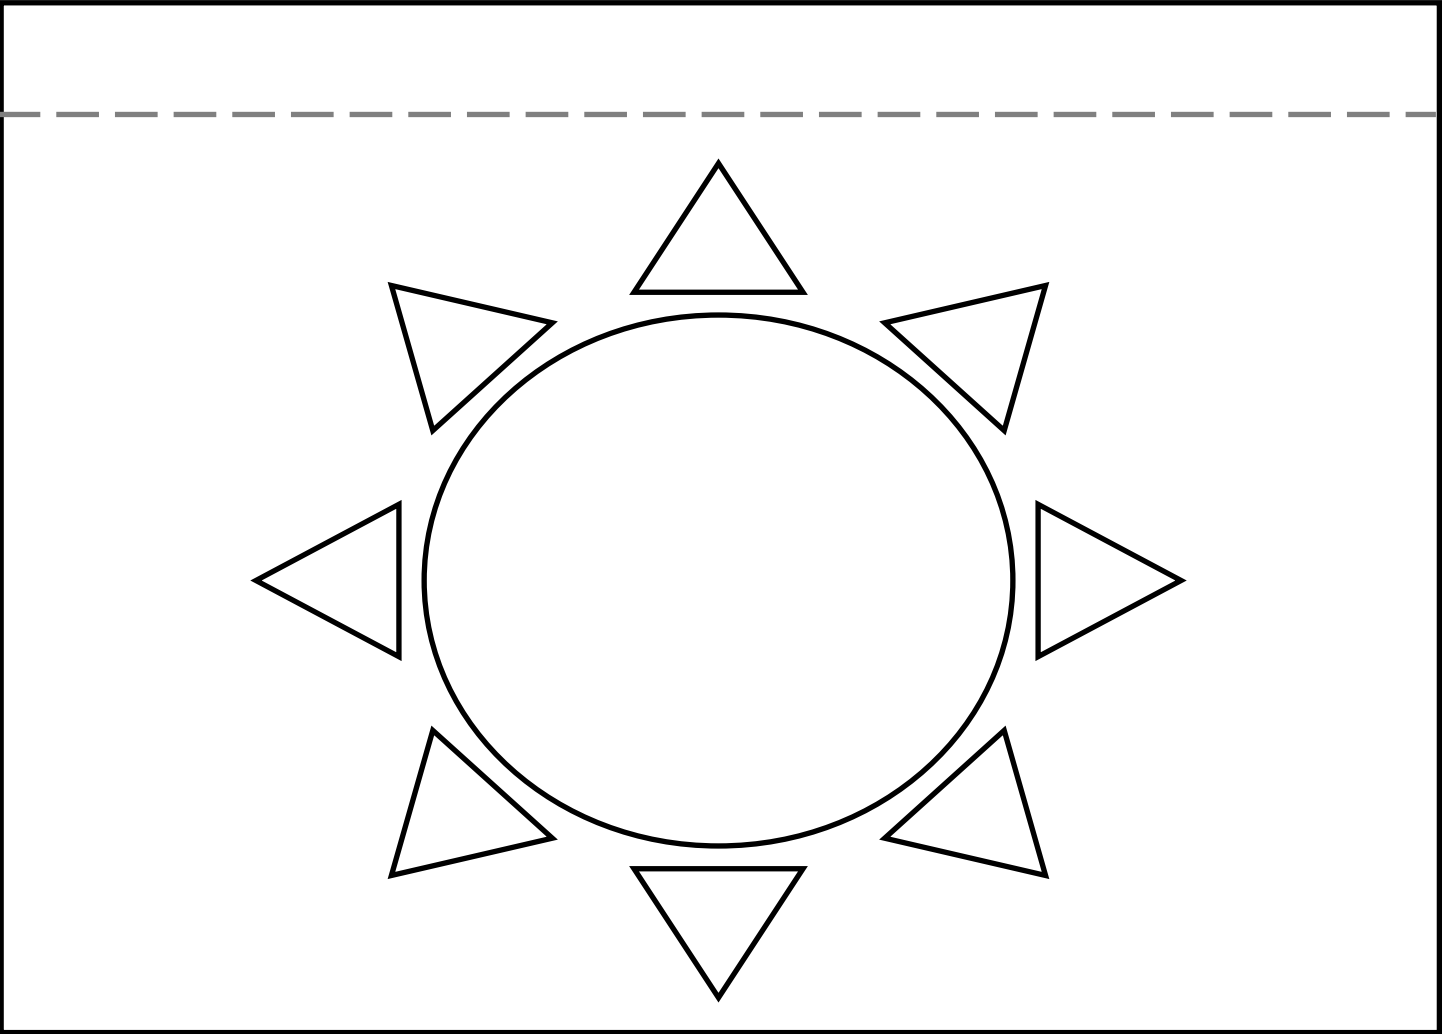

Instructions:

1. Color your sunshine wind flag.
2. Cut it out around the outside lines, and then cut each of the long lines at the bottom, keeping them attached to the flag.
3. Curl up the long rectangles you just formed by rolling them around a pencil.
4. Fold the top along the dotted line and then tape it so there is an opening for your straw to fit through.
5. Put the straw through the opening at the top of your flag and then run a piece of yarn or string through the straw.
6. Tie the yarn so you can hang the flag from the yarn loop.
