

# FEATHER BOOKMARK

## You will need:

- Feather/bookmark template
- Colored pencils, markers or crayons
- Colorful cardstock
- Clear contact paper
- Ribbon
- Scissors
- Tape or glue

## Instructions:

1. Color the feather before cutting it out. Cut out the bookmark shape on a piece of colorful cardstock.
2. Attach feather to one side of the colorful cardstock bookmark using tape or glue. Flip your bookmark over, and attach the ribbon to the top of the cardstock.
3. Cut a piece of the clear contact paper. Make sure that your contact paper is at more than double the width of the bookmark template and about two inches longer.
4. Remove backing from contact paper and fold sticky side around the front and back of your bookmark. Make sure you do not trap your ribbon inside the contact paper! You want it to dangle out of the top so that it will stick out of your marked book.
5. Cut excess contact paper from sides.

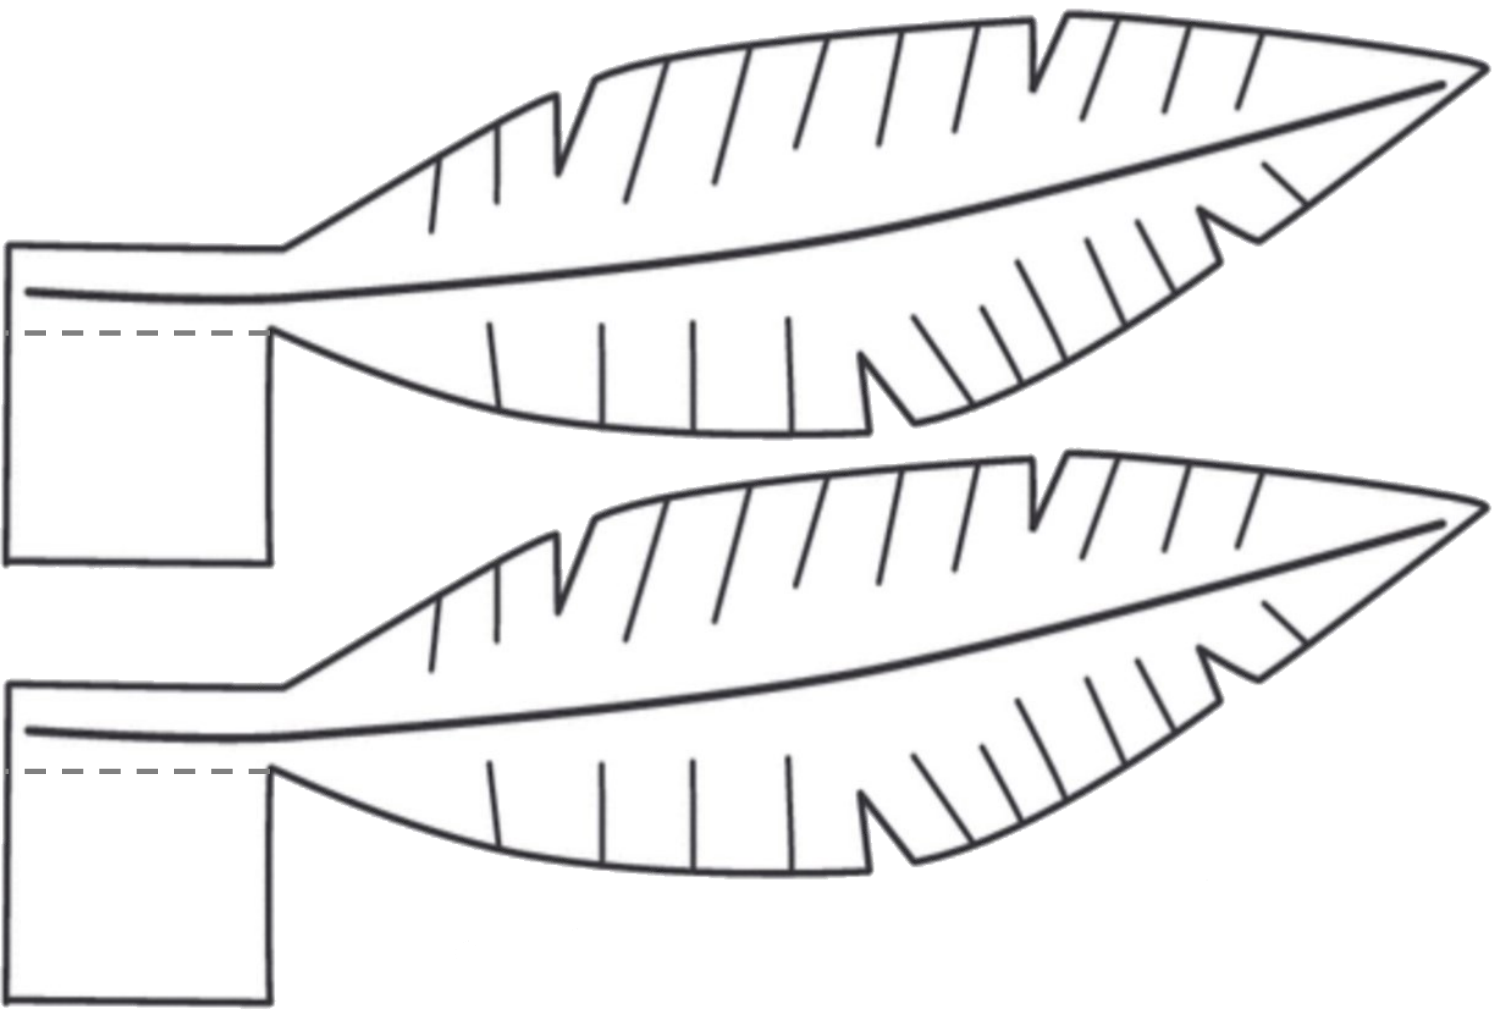

## Feather Quill

Color the feather before cutting it out.

Attach the tabs with glue or tape around an ink pen to make a quill!

You can get points for this activity on READSquared!

**FEATHER TEMPLATE** - for the bookmark, cut along the dotted line. For the quill, cut out the entire base in order to secure it around the pen.
